Education

Year	Degree	Institute	CGPA
2023-2027	B.Tech Information Technology	GTBIT, GGSIPU, New Delhi	8.2 (Current)
2022	CBSE(XII)	Modern School, New Delhi	7.3
2020	CBSE(X)	Modern School, New Delhi	7.6

Experience

- **IT Systems Manager** *Jun 2021 - Aug 2022, Oct 2022 - Jan 2023*
  TPGCO & GCA (Proprietorship Firms) Delhi
  – Managed IT infrastructure for 8-10 team members, improving system uptime by 25% through proactive maintenance
  – Administered Windows systems, WordPress platforms, LAN networks, and Excel-based records for seamless operations
  – Implemented automated workflows and optimized system performance across offline/online business operations

Projects

- **QRail - Smart Railway Track Fitting Management System** *Sept 2025*
  Flutter, Node.js, Firebase, Python Analytics | Smart India Hackathon **GitHub**
  – Designed a QR-based tracking system for Indian Railways to digitize 100M+ fittings (clips, pads, sleepers), replacing manual registers with real-time Firebase-backed mobile apps.
  – Developed dual-role app (Vendor/Inspector) with Node.js backend and Python dashboard for live inventory, warranty logs, complaint status, and failure trend analytics.
- **Medical AI Discovery Platform** *Mar - Sept 2025*
  Next.js, TypeScript, PubChem API, IBM RXN **GitHub**
  – Built AI-powered drug discovery platform with molecular visualization and predictive analysis
  – Integrated PubChem, IBM RXN APIs for comprehensive pharmaceutical research data aggregation
- **HCloud - Unlimited Cloud Storage** *Feb 2026*
  React, Node.js, Python, Firebase, Telegram API **GitHub**
  – Engineered cloud platform leveraging Telegram infrastructure for unlimited free storage with direct file access
  – Implemented video playback, PDF viewing, MP3 streaming without opening Telegram using React + Node.js backend
- **HariWave - Audio Streaming Platform** *Jan 2026*
  Android (Java/Kotlin), Custom Database, REST APIs **GitHub**
  – Developed Android app aggregating 100+ free audiobooks/podcasts with custom player and playlist management
  – Optimized database architecture for efficient metadata handling and seamless audio streaming experience
- **Hledger - AI Task Manager & Expense Tracker** *Nov 2025*
  Flutter, Supabase, Google Gemini API **GitHub**
  – Created AI chatbot combining task management, reminders, and expense tracking using Google Gemini NLP
  – Implemented Supabase backend for real-time data synchronization across devices with Flutter frontend

Technical Skills

- **Languages**: Python, Dart, TypeScript, JavaScript, Java, Kotlin, C/C++, SQL
- **Frontend**: React, Next.js, Flutter, Tailwind CSS, Bootstrap, HTML5/CSS3
- **Backend**: Node.js, Express.js, Firebase, Supabase, REST APIs, MongoDB, MySQL
- **DevOps & Tools**: Git, GitHub, Vercel, Netlify, Docker, WordPress, Figma, VS Code, Android Studio
- **Specializations**: Mobile Development (Flutter, Android SDK), AI Integration (Google Gemini, OpenAI), Browser Extensions, Cloud Architecture

Certifications & Achievements

- **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate** - Oracle Corporation
- **Perfect Pitch 2.0 - 1st Position** - Ecell GTBIT | 20+ teams | Sept 9, 2025
- **Hack with Sanchaar (Circuitrix) - 1st Position** - ECE Dept TechFest | 15+ teams | Sept 10, 2025
- **Srijan 2025 - 1st Position + Medal + Cash Prize** - CSE Dept | Sept 12, 2025
- **NGO Teaching Internship** - Pehchaan Street School | Community Education Initiative

Positions of Responsibility

- **Lead Organizer - Math-E-Thon 2.0**, 24-hr International Hackathon | 300+ teams globally, Rs 3L budget *Nov 15-16, 2025*
- **Technical Event Management**, Managed logistics, sponsors, judging, participant engagement *2025*

Additional Information

- **Open Source Contributions**, 26 repositories | 35+ stars | 10+ forks on GitHub *2024-2026*
- **Languages**, English (Professional), Hindi (Native)
- **Interests**, Full-stack Development, AI Integration, Cloud Architecture, Mobile App Development
